FOREWORD

FACT BOOK 1989-90 is designed to provide timely, accurate and comparative data about the State University System of Florida. It is intended for use by individuals interested in higher education in Florida. Our primary goal is to present summary information in a form which is easy to understand. Information is provided in the form of tabular displays and a glossary of terms and abbreviations.

Data in the FACT BOOK were gathered from a variety of sources. The primary source documents were the State University System Data Tapes, the Integrated Postsecondary Education Data System Reports (IPEDS), annual financial statements, operating budgets, and reports required by the United States Office for Civil Rights.

Every effort has been made to ensure that the data contained in this document is accurate and easy to use. Prior to republication of portions of this document or use of its data in policy development or analysis, we recommend you contact our staff to ensure that you receive any post-publication changes. In order to help this communication, we have placed the initials of the Board of Regents Office responsible for the data presented in the lower left corner of each table or figure. The initials are expanded in the glossary. In addition, a directory of Board of Regents Staff by responsibility has been included.

STATE UNIVERSITY SYSTEM OF FLORIDA

The State University System of Florida consists of nine state universities, and the Board of Regents and its staff. The System was established formally in 1905, when the Florida Legislature enacted the Buckman Act. This legislation consolidated various post high school institutions into three, under a Board of Control. After consolidation, the System included the University of the State of Florida in Gainesville, Florida A&M College and Florida State College for Women in Tallahassee. As Florida's economy developed in the post-war era, the desire for education grew significantly throughout the state. The demand for advanced instruction within commuting distance of home led to a period of expansion. Between 1956 and 1965 six additional institutions were established. In order to enhance the coordination of this growing system, the Florida Legislature established the Board of Regents as the single governing board of the state supported universities.

The Board of Regents was established in 1965, with nine members. Today, that number has grown to thirteen. The membership includes eleven Regents appointed by the Governor for six-year terms, a student Regent appointed for a one-year term, and the Commissioner of Education, ex-officio. The Chancellor is the Chief Administrative Officer of the Board of Regents and of the State University System. The Board and Chancellor are supported by the Board of Regents staff in Tallahassee, organized along major functional lines: The Office of the Chancellor, including the Offices of Equal Opportunity Programs, Internal Management Auditing, General Counsel, and Corporate Secretary; the Office of the Executive Vice Chancellor, including the Office of Academic Programs, consisting of program review, academic planning, and research services; the Office of Budgets and Finance, consisting of business and financial operations, construction administration, personnel programs, labor relations, and office support services; the Office of Health Affairs; and the Office of Public Affairs, including the Director of Public Information, all governmental relations activities of the Board and information resource management.

By statute, the Board of Regents prepares the Legislative Budget Request, selects university presidents and makes policy. Its responsibilities include adoption of systemwide rules and policies, planning for future needs of the System, evaluating and coordinating program development, among others. The Board is analogous to a Board of Directors of a corporation. The Chancellor is analogous to its chief executive officer. Responsibility for the operation of each institution is delegated to the universities. In the state organizational structure, the Board of Regents is placed within the State Department of Education as "the division of universities." The State Board of Education is charged with the responsibility of approving or disapproving all rules adopted by the Regents and adopting and transmitting the State University System Legislative Budget Request.

Today the State University System of Florida consists of nine institutions: in Gainesville, the University of Florida; in Tallahassee, Florida A&M University and Florida State University; in Tampa, the University of South Florida; in Boca Raton, Florida Atlantic University; in Pensacola, the University of West Florida; in Orlando, the University of Central Florida; in Jacksonville, the University of North Florida; in Miami, Florida International University. Twelve off-campus centers are located throughout the state. In addition, the University of Florida Institute of Food and Agriculture Science (IFAS) administers seven agricultural research and education centers, as well as sixty-nine county cooperative extension programs. The University of Florida and the University of South Florida operate academic health centers. The University of Florida Health Center includes medical, dental, veterinary medicine, pharmacy, health related professions, and nursing programs. The University of South Florida Medical Center includes medical, nursing, and public health programs. These Centers provide professional degree programs and post-graduate residency in a variety of clinical settings.

The System overall receives a significant infusion of resources from the state Legislature. The System continues to be involved in one of the most active capital construction programs in the nation. The number of endowed Eminent Scholars chairs continues to rise. The Eminent Scholars program continues to be one of the most significant and innovative programs for building public-private partnerships in the nation. It also continues to be emulated by Legislatures throughout the nation.

(1) Includes only copyrights and patents resulting from contracts or grants which allow unversity ownership.
(2) Department of Health & Human Services (DHHS) approves the indirect cost rates which will be paid by all Federal agencies.
(3) Although the established rate is based on salaries, wages and fringe benefits, the majority of indirect costs recovered are based on a percentage of 8% of modified direct costs.
(4) Data reported is the percentage of modified total direct costs.
(5) Data reported is the percentage of salaries, wages and fringe benefits.
